

TEACHER ASSIGNED

Flexible tutoring directed by teachers.

Teacher-Assigned Tutoring empowers educators who know students best to schedule face-to-face, personalized support from tutors. Teachers get an extra set of hands focused on reinforcing what happens in the classroom, with a targeted focus on the specific needs of an individual student.

Teacher Portal

An easy-to-use, single sign-on hub where teachers can access their student roster, tutor request form, tutor messaging, collaborative tools, progress reporting, and more.

Face-to-Face Instruction

Using live video and a shared workspace, students and tutors stay engaged, use interactive tools, and collaborate online more effectively than ever before.

Flexible Scheduling

Teachers are in the driver's seat. They can easily update students' tutoring schedule (meeting days, times, duration, start date, end date), the subject, and their learning goals. Teachers may also provide additional content and materials for tutors to use during sessions.

Progress Reporting

Teachers can choose to receive an exit ticket detailing skill mastery after every tutoring session. They'll find these and other data in easy-to-use dashboards.

On Demand and more

Students can seek help from expert tutors through our 24/7 live chat across core K-12 subjects. This also includes access to self-study resources, daily drop-in live classes, live StarCourses, and star-taught on-demand lessons.
