

Uplift Every Student

Personalized learning delivered at scale.

varsitytutors.com/school-solutions

“

Varsity Tutors delivered amazing, responsive, just-in-time tutoring for a population of Title 1 students with such professionalism and tutor capacity that we were blown away.

– Cheryl Lawson, Superintendent,
The Lawson Academy, TX

Transforming education together.

A virtual support system for your district, teachers, and students.

No matter your district's needs, we have you covered. Varsity Tutors is committed to helping teachers and administrators close the equity gap and better reach students, from those who are struggling to those who are advanced, through personalized, high-quality support.

Our comprehensive platform includes everything you'll need to successfully and sustainably scale personalized learning across your entire district: 1-on-1 tutoring, small group tutoring, adaptive assessments, an administrative dashboard, a dedicated support team, and more.

ON DEMAND

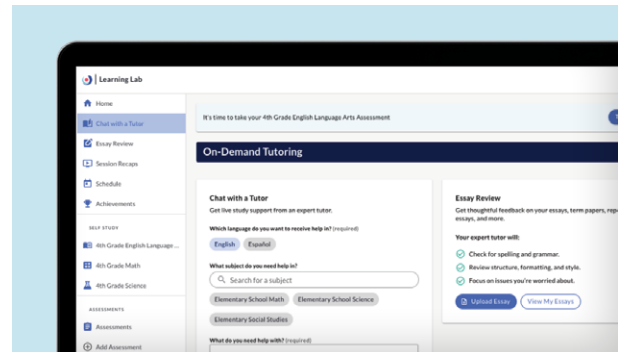

24/7 support at their fingertips.

Give every student easy access to personalized learning support when and where they need it. With On Demand, your students have access to 24/7 unlimited real-time learning support from highly qualified tutors, proven standards-based self-study resources, and always-on enrichment.

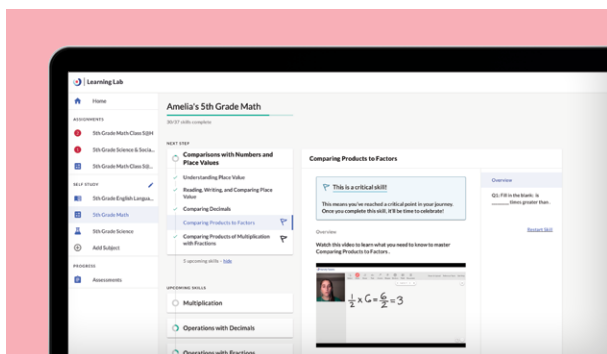

On-Demand Tutoring

Students can seek help from expert tutors through our 24/7 live chat across core K-12 subjects. With our shared whiteboard students can draw, upload a file, or share an image of their assignment.

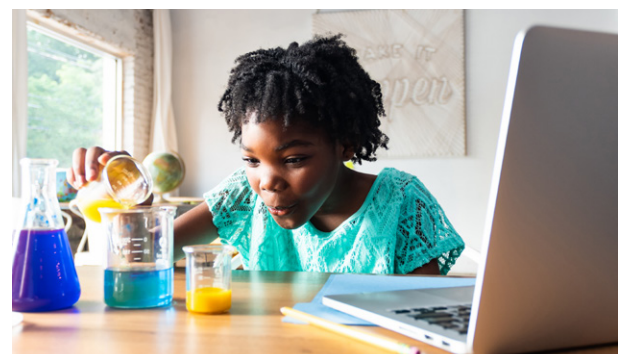

Essay Review

Students upload drafts and receive asynchronous detailed feedback from experts in grammar and composition to improve their writing and submit more thoughtful work.

Self-Study Resources

Students can identify and close skill gaps at their own pace through adaptive assessments, instructional videos, quizzes, and practice problems all aligned with academic standards.

Enrichment Classes

Inspire students to dive deeper into their interests. They'll have access to daily drop-in live classes, live StarCourses, and star-taught on-demand lessons.

TEACHER ASSIGNED

Flexible tutoring directed by teachers.

Teacher-Assigned Tutoring empowers educators who know students best to schedule face-to-face, personalized support from tutors. Teachers get an extra set of hands focused on reinforcing what happens in the classroom, with a targeted focus on the specific needs of an individual student.

Teacher Portal

An easy-to-use, single sign-on hub where teachers can access their student roster, tutor request form, tutor messaging, collaborative tools, progress reporting, and more.

Face-to-Face Instruction

Using live video and a shared workspace, students and tutors stay engaged, use interactive tools, and collaborate online more effectively than ever before.

Flexible Scheduling

Teachers are in the driver's seat. They can easily update students' tutoring schedule (meeting days, times, duration, start date, end date), the subject, and their learning goals. Teachers may also provide additional content and materials for tutors to use during sessions.

Progress Reporting

Teachers can choose to receive an exit ticket detailing skill mastery after every tutoring session. They'll find these and other data in easy-to-use dashboards.

On Demand and more

Students can seek help from expert tutors through our 24/7 live chat across core K-12 subjects. This also includes access to self-study resources, daily drop-in live classes, live StarCourses, and star-taught on-demand lessons.

HIGH DOSAGE

Customized tutoring for accelerated learning.

Research overwhelmingly shows high-dosage tutoring to be the most effective intervention for accelerating learning and closing learning gaps. And that's where we can help. We partner with you to provide High-Dosage Tutoring (1-on-1 and Small Group Tutoring) to students who need more attention and support.

Live Learning Platform

Our purpose-built platform combines interactive tools, collaborative workspaces, and face-to-face video instruction to create an effective and engaging online learning experience.

1-on-1 Tutoring

Students work closely with educators that have been specifically selected based on the student's needs.

Small Group Tutoring

Up to 5 of your students are placed into a group based on proficiency level and age.

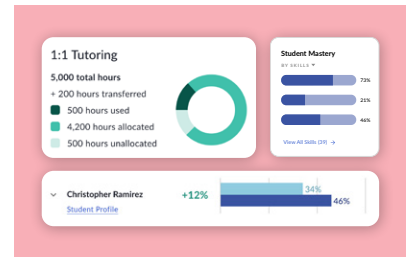

Tutor Matching

Our matching algorithms take into account over 100 attributes to identify student-to-expert matches with the highest probability of a successful outcome.

Data-Driven Personalization

Adaptive diagnostics and ongoing assessments help pinpoint student needs, create individualized learning plans, inform tutoring sessions, and track student progress.

Diagnostics & Reporting

Stay on top of key metrics with detailed reports and user-friendly dashboards. Track consumption, individual student progress, and skill-specific proficiency.

Highly Qualified Tutors

Because only the best will do.

Connecting your students with the right tutors starts with having nothing but top-notch tutors on our roster. We do this by setting a very high bar.

Our Approval Process

Before a tutor ever meets with a student, they must first:

Step 1

Complete an interview to assess experience, skillset, capabilities, and personality.

Step 2

Lead a simulated tutoring session to showcase subject-specific knowledge.

Step 3

Demonstrate their ability to instruct in a virtual environment.

Step 4

Get ranked and scored against our industry-leading quality standards.

Step 5

Pass academic and personal background checks.

What we look for in a tutor:

- Exceptional teaching and communication skills
- Adept at identifying why students struggle
- A teaching style that keeps students engaged
- Experience with 504 Plans and IEPs
- Ability to customize assignments to unique needs
- Willingness to work with students from all socioeconomic, racial, and ethnic backgrounds
